Principal ISHIHARA MICHIO

Measures against Special Warning, Storm Warning and/or Earthquake

If a storm warning is issued or the earthquake with seismic intensity of a lower 5 or greater occurs in Kyoto, pay great attention to the latest news on TV or radio. Also visit our school website.

In the case where “a special warning” is issued in Kyoto city

1. When it is issued before school starts.

Have your child/children stay home until “a special warning” is lifted.

2. When “a special warning” is lifted by the following time, we take different measures.

	measures	
Lifted by 0:00 am	Class starting from the 5 th period	No school lunch
Being in effect as of 0:00 am	No school	Studying at home

3 When “a special warning” is issued during classes, we immediately cancel classes.

After confirming the safety, we start to release students referring to the emergency addressee card; some go back home in groups and the others wait until their parents come.

※If you change the emergency contact number or the way of leaving for home, let us know as soon as possible.

In the case where “a storm warning” is issued in Kyoto city

1. When it is issued before school starts

Have your child/children stay home until “a storm warning” is lifted.

2, When it is lifted by the following time, we take different measures.

		commuting to school in group & school lunch
① Lifted by 7:00 am	class starting as usual	commuting to school as usual school lunch is served.
Lifted by 9:00 am	Class starting from the 3 rd period	commuting to school 2hours behind schedule School lunch is served.
② Lifted by 11:00am	Class starting from the 5 th period	commuting to school No school lunch
③ Being in effect as of 11:00am	No school	Studying at home

3, When “a storm warning” is issued after school starts

Classes are immediately cancelled. As for dismissing students, we take the same measures as those of “a special warning.”

In the case where “heavy rainfall, flood warning or some warning” is/are issued, school starts as usual. Please be careful to the name of warning.

In the case where “the earthquake with a seismic intensity of a lower 5 or greater” occurs in Kyoto city

1 When it occurs before school starts

① ◇ When it occurs before 0:00am…School closes the following day.

◇ When it occurs after 0:00 am and before school starts…School closes on that day.

◇ When it occurs on a holiday or the day before a holiday…School closes the following day of the holiday.

② We definitely inform you when school restarts again after confirming the safety.

We follow the “emergency contact number” on emergency addressee card; some wait until their parents come and the others go back home in groups. In case of changing the number, let us know as soon as possible.

2, When “ the earthquake with a seismic intensity of a lower 5 or greater” occurs while students are at school.

Be sure to let your child to tell by himself/herself which group you belong to, leaving school in group of waiting at school. ※ In case of changing the emergency contact number(including cellular phone) or measures leaving school, be sure to let us know.

【What is “Special Warning”】

Japan Meteorological Agency already issued some alerts, when we expected high risk disasters resulting from heavy rain, earthquake, tsunami or high tide. In the case of where extraordinary rain or great tsunami which exceed the previous standard criteria, we decided to issue the newly “Special Warning” to alert the utmost warning. Once “Special Warning” is issued, take action to put your life first.
